What is the Interest Rate?

There is **NO interest rate**. It's an advance, **NOT a loan**. You receive an advance based on your Visa/MasterCard business-and you pay back a small percentage of your Visa/MasterCard transactions, until your total balance is settled. **That's it**. There are **NO Fixed Payments**, simply an agreed upon percentage of your Visa/MasterCard sales until the total advance has been paid. The good thing is that if you have a slow month of business, you're not penalized. The balance quoted up front - never gets higher.
